

**THE LARGEST RANGE OF ALL-ELECTRIC TUBE BENDING MACHINES
ON THE MARKET FROM 12 mm (½") to 273 mm (10")**

Breeze 130 mm (5")

- This high capacity tube bender is ideal for high accuracy and repeatability necessary for the aerospace industry
- Available in multi-radius, multi-stack, single-stack and left or right hand versions
- Common applications:
Automotive, Aerospace

Size	130 mm (5")
Bend Direction	right or left
Bending Capacity*	Ø 130 x 2.5 mm
Bend Torque	47,000 Nm
Servo Controlled Follower	180° at 3D CLR
Collet Capacity	130 mm
Axis Speed (max) Feed	500 mm/sec
Bend	50 deg/sec
Rotation	90 deg/sec
Max Stacks at Max OD (Std)	3
Max Bend Radius (Std)	4D
Max Bend Angle	190°

Size	130 mm (5")
Load Height (Std)	1,300 mm
Max Tube Length (Std)	3,200 mm
Max Tube Length (Hitch) (Std)	5,900 mm
Multi Radius**	Standard
Repeatability/ Accuracy	Feed: 0.05/0.1 mm Bend: 0.05/0.1 Rotation: 0.05/0.1°
Length (Std)	7,840 mm
Width (Std)	2,370 mm
Weight (Std)	13,500 kg
