

General Information

- Patented design and rugged construction lets you secure a wide variety of loads quickly and easily.
- Simply attach the two hooks and pull the loose end of the rope to get the secure tightness you need.
- Never worry about stretching, snapping back or loosening.
- Your load stays locked in place with every pull, until you release it by pushing the convenient Thumb Lever.

No matter what the job, we make it simple and secure, 1001 uses for work or play, home, office, garage, yard, ranch, farm, auto, truck, boat, aircraft. If it needs to be tied down or hoisted – Rope Ratchet can do it!

Usage Ideas

- Better than rope! Better than elastic cord!
Better than webbing!
- As simple as hook ends – pull tight!
- Will not slip!
- Easy to use thumb lever releases tension!

Four Sizes of Rope Ratchet Tie-Downs for All Your Needs!

Each Rope Ratchet is made super tough to take all the hard work you do. The outer casings are made from #6—33% Glass Filled Nylon with interior mechanisms of Die Cast Zinc. The rope is Solid Braided Polyester or Polypropylene and the hooks are Zinc Plated Steel. Tough-Strong-Dependable.

Size	Maximum Load Limit	Actual Body Size	Packaging and Suggested Uses
0.125" Rope Ratchet with 6.000' Solid Braided Polyester Rope	75 lbs	1.375" x 0.750"	Two units per pack. Perfect for a wide variety of uses for home, office, workroom and garden.
0.250" Rope Ratchet with 8.000' Solid Braided Polyester Rope	150 lbs	2.250" x 1.250"	Single, Clamshell pack with/without Rope and six unit 'Value Pack'. Perfect for larger jobs such as tying down tarps, securing tents and camping shelters. Also hoisting and securing items for transport.
0.375" Rope Ratchet with 8.000' Solid Braided Polyester Rope	250 lbs	5.000" x 2.500"	Perfect for larger jobs securing heavy loads for transport, hoisting items, straightening windblown trees or securing objects under tension including aircraft, boats, etc.
New 0.500" Rope Ratchet with 8.000' Solid Braided Polyester Rope	500 lbs	5.000" x 2.500"	Perfect for the heavy-duty jobs of securing loads, hoisting and many other uses for your work. This is the workhorse ratchet for all you do.

Try the 1/2" Power Ratchet™

The 1/2" Power Ratchet provides the mechanical advantage you need to really crank down that load. Unlike webbing and strap type ratchets that are difficult to use and spool, making you unwind and start over, the Power Ratchet works on the same 'pull through' system of the Rope Ratchet.

To use, secure both end hooks and manually pull free end of rope tight. Once hand tight, the Power Ratchet's mechanical advantage is used by pumping the Ratchet handle.

The rope automatically ratchets through and is tightened, no spooling, no slipping. Once the desired tightness is reached, the loose rope is tied off and the handle closed flat for transit.

To release the load, simply compress the Release Bar and open the handle.
